

Preparing ASEAN's TVET Systems for the Green Transition

From green-job creation to the capabilities needed to prepare workers

DAY 1

Where will green jobs emerge?

DAY 2

What green skills are required?

TVET RESPONSE

How ready are systems to deliver?

Two linked priorities: translate sectoral demand into competencies • reform TVET systems for delivery

Four Perspectives — One Policy Challenge

1 GIZ RECOTwin + LinkedIn

Demand and supply of green jobs and green skills

2 ILO

Green Dictionary: identifying and measuring jobs and skills

3 GERI — Pavlova & Paryono

Institutional readiness: assessment tool and initial findings

4 TESDA Philippines

From readiness to action: greening TVET systems

Plenary Synthesis: What Should Move into Policy Dialogue?

SKILLS SIGNALS

Which occupations and competencies need priority attention?

DELIVERY READINESS

What prevents TVET institutions from responding effectively?

COLLECTIVE ACTION

Which reforms need national action or ASEAN cooperation?

Use the speakers' actual contributions to fill in the synthesis; do not pre-announce consensus.
